

Person Centered Practices (PCP) Discussion Guide

Instructions:

- Assign roles:
 - Discussion leader: keep group on task, manage time
 - Reporter: summarize key highlights to the whole group
- 20 minutes total to discuss the questions below.

Discussion Questions

Support of Person-Center Practices

1. What elements in the *Ten Suggestions* are important to you from the parental/family perspective?
2. For those with a previous positive experience with PCP, what elements in the *Ten Suggestions* reflect that experience? What, if anything, doesn't support it?
3. Is anything missing from this document that you wish it included?

Cultural Responsiveness

4. What elements in the document are culturally* responsive?
5. What could be added to make the document more culturally responsive?
6. Are there elements that are *not* culturally responsive?

* Culturally responsive practices value diversity, understand differences, and develop services and supports to meet the unique needs of each community. *Definition adapted from [Minnesota System of Care](https://mn.gov/dhs/mnsoc/core-values/culturally-responsive.jsp) (<https://mn.gov/dhs/mnsoc/core-values/culturally-responsive.jsp>)*

Linguistic Responsiveness

7. What elements in the document are linguistically* responsive?
8. What could be added to make the document more linguistically responsive?
9. Are there elements that are *not* linguistically responsive?

*Linguistic responsiveness refers to the ability to effectively communicate with and accommodate the linguistic diversity of individuals and communities. It involves recognizing and respecting the different languages, dialects, and communication styles that people may use, and adapting communication strategies to ensure meaningful interaction and understanding.
